PRESENTATION:	In bulk in autotank. Totes of 1,000 Kg. 200 kg drums. 20 kg jugs.	
ORIGIN:	Mexican coast of the Pacific Ocean and Sea of Cortez.	
INGREDIENTS:	Water from the whole fresh fish cooking and pressing process stabilized with small doses of sulfuric acid.	
SENSORY:	Thick liquid Dark brown color Concentrated smell of fresh fish Absence of foreign matter	
PHYSICO-CHEMICAL:	Impurities (Organic Matter)	0.1% Max.
	Concentration	45° Bx Min.
	PH	4 Min.
	Peroxides	5-10 meq
	Free Fatty Acids (FFA)	20% Min.
	Protein	30% Min
NUTRITIONAL COMPOSITION:	Crude Protein	31.25%
	Nitrogen	5.0%
	Ammoniacal Hydrogen	0.5 %
	Water Soluble Nitrogen	3.50 %
	Phosphate (205)	1.00%
	Sulfur	2.00%
	Potassium	1.00%
	Iron	250ppm
	Zinc	20ppm
	Calcium	1.00%
	Amino acids	18.00%
	Organic Matter	28.00 %

RECOMMENDATIONS:

SHAKE BEFORE USE

Keep and transport in closed tanks that have not contained chemical products, fats or any other compound that puts at risk the alteration of its characteristics, avoiding its exposure to air, light and humidity at room temperature preferably maximum 35°C. May contain authorized antioxidant.
